

Oscar Isberg

Software Developer

Relevant Experience

A.P. Møller, Maersk - Software Engineer August 2023 - July 2024
Göteborg, Sweden

- Part of a team at Maersk focused on integrating customs applications within the logistics IT infrastructure.
- Worked on a legacy .NET Framework 4.8 system and contributed mainly to modern microservices using .NET 8.
- Followed clean architecture principles and used event-based communication with Kafka for efficient system design.
- Drove user story implementation and conducted testing, including unit, integration, functional, and non-functional acceptance tests using BDD.
- Participated in agile processes such as hosting daily scrums, sprint demos, and facilitating team collaboration.

RS Software - Software Developer, Internship January 2023 - April 2023
Varberg, Sweden

- Learned company techniques and tools including Azure DevOps, Docker, Kubernetes, and JavaScript.
- Developed part of an Azure Functions app and implemented new customer-facing functionality.
- Built an app with a backend in ASP.NET and extended an existing Next.js frontend, including a CI/CD pipeline in Azure DevOps hosted in a Kubernetes cluster.

Digital Creation - Software Developer, Internship August 2022 - November 2022
Varberg, Sweden

- Rewrote a booking platform from scratch, giving the customer a more user-friendly experience.
 - Gained knowledge in C# / ASP.NET, JavaScript / Vue.js, relational databases with MSSQL and Entity Framework, and logging.

Projects

Rain History - Personal Project 2026 - Present
Copenhagen, Denmark

- Building a Next.js and TypeScript app that uses weather history to help users judge mushroom readiness in Sweden.
- Designing the first product flow and shaping the app architecture with feature plans, decision logs, and UML diagrams.
- Implementing API routes, UI flows, and domain logic for weather history and mushroom readiness.
- Built an agent-assisted workflow for planning, implementation, review, and documentation.
- Writing Jest tests for API, service, repository, model, and validation code to keep the early codebase stable.

Other Relevant Experience

Skistar Hemsedal - Ski Instructor Winter seasons 2017/18 - 2021/22 & 2024/25
Hemsedal, Norway

- Taught group and private lessons to guests of all ages and nationalities, adapting teaching methods to different skill levels and learning styles.
- Built strong communication and leadership skills by instructing, motivating, and managing groups in a dynamic environment while ensuring safety and an enjoyable learning experience.
- Contributed to the development of ski instructors through one-on-one coaching and internal training clinics.

Education

IT-Högskolan - .NET Development August 2021 - July 2023
Stockholm, Sweden

- Completed courses in C#, advanced programming, database development, web development, agile development, customer understanding, and clean code.
- Gained practical experience through two internships.

Professional Profile

Software developer with hands-on experience in modern .NET development, TypeScript, React, and Next.js. I work across the full lifecycle, from planning and implementation to testing and delivery.

I write clear code, document decisions, and enjoy turning early ideas into working products with a steady and practical approach.

Technical Skills

C# (.NET 8)

TypeScript and JavaScript
(Node.js, React, Next.js)

PostgreSQL, SQL Server, Entity Framework

Event-driven microservices using Apache Kafka

Testing: Jest, xUnit

API design, validation, and domain logic

Docker, Kubernetes

CI/CD with GitHub Actions and Azure DevOps

Languages

Swedish: Native

English: Fluent

Danish: Fully understands spoken and written Danish; good spoken proficiency

About Me

This summer, I moved from Sweden into an apartment on Ægirsgade in Nørrebro, where I am enjoying the opportunities that come with living in a big city. For many seasons, I have worked as a ski instructor in Hemsedal and spent last autumn in Lofoten, Norway. I like staying active and enjoy reading in my free time - right now, I am reading *The Life of the Mind* by Hannah Arendt. Now, I am looking to find a welcoming and challenging workplace where I can settle in, contribute, and continue to grow.
